DATE: 13-26 August, 2012.

The aim of our project is to give back self-confidence to young people with disadvantaged backgrounds.

Our project is a trilateral youth exchange, involving youngsters from Croatia, Hungary and France. Each country will be represented by 8 participants (aged between 18 and 30) and one group leader.

Main themes of our project are education through sport, outdoor activities and youth leisure.

We intend to include people with fewer opportunities (with social, economical or geographical obstacles, disability or health problems)

The objectives of our project are to develop solidarity and promote tolerance among young people, to foster mutual understanding between young people in different countries and to promote European cooperation in the youth field. Priorities for our project are also inclusion and cultural diversity, such as promoting healthy lifestyles through physical activities including sport and fight against poverty and marginalization.

Our methods include non-formal learning (education through outdoor activities, mainly activities around horses and riding), some individual work (workshops in groups, role-plays and round-tables). Activities are in the line of the themes, through which we intend to gain more effective outcome. The themes will be education through sport and outdoor activities and youth leisure.
